

Chassis 557 is a compact, universal enclosure designed to accommodate a wide variety of Mini-ITX mainboards. Extremely versatile, the 557 can support a 2.5" HDD and up to four cooling fans on a side, or two larger 60 mm cooling fans in place of the hard drive. The well-vented 557 also permits fanless operation through natural air convection for mainboards with a TDP of less than 10 watts. For boards with a TDP of 65 watts or less, active cooling from the CPU fan is more than sufficient. This case is ideal for rebranding and is a suitable choice for such applications as Point-of-Sale, kiosks, and gaming. The 557B includes easy-to-use mounting brackets for secure and discreet placement on any vertical or horizontal surface.

Specifications

Model No.	557
Form Factor	Compact Mini-ITX (Case)
Material	Lightweight aluminum alloy
Finish/Color	<ul style="list-style-type: none"> • Matte • Black
Dimensions (w x h x d)	192 x 62 x 210 mm (7.6" x 2.5" x 8.3")
Power Supply (AC Adapter)	<ul style="list-style-type: none"> • None
Power Supply (DC Board)	<ul style="list-style-type: none"> • None
Power Connector	<ul style="list-style-type: none"> • No
Storage	<ul style="list-style-type: none"> • 1x 2.5" HDD
PCI Expansion	<ul style="list-style-type: none"> • No
Access (Front, Back, Side)	2x USB ports Smart Power Button
Cooling	No fans included Supports 4x 40 mm cooling fans per side, and 2x 60 mm cooling fans can be mounted in place of a hard drive
Case Standoffs Height	5.36 mm
Included Items	Mounting brackets Screws Adhesive foot pads
